

BUSINESS REGISTRATION PROGRAM

The City of Eastvale has transitioned Business Registration from the County of Riverside as of July 1, 2011. Businesses within the City of Eastvale are required to obtain a business certificate. The Business Registration program is outlined in Title 6 of the Eastvale Municipal Code, which was adopted by the City of Eastvale in February 2013 and which details the contents of the application form, certificate issuance protocol, description of registration fees, registration inspections, water quality inspections and enforcement, and business registration enforcement procedures. The ordinance requires all businesses to register; however some businesses are exempt from paying fees. Exemptions are granted for various agricultural activities, places of worship, tax exempt non-profit organizations, and any business exempt by virtue of federal or state law.

Business registration fees will not exceed the reasonable cost of providing an inventory of City businesses and the required registration information. The City of Eastvale business registration program is a fee service program and is not a business license tax.

A business registration form designed to ascertain pertinent information regarding the business will be mailed to every known business within the City of Eastvale. In addition, businesses will have the ability to access the City of Eastvale's website to obtain a registration form. For more information regarding business registration requirements, please contact the City of Eastvale at (951) 703-4439 or on the website at www.eastvaleca.gov.
